

Is it **Hearing Loss** or just **Earwax**?

Otoscopic assessments are held for
4 DAYS ONLY
& they are **FREE!**

Appointment times are limited so call today!

**Your Otoscopic Assessment may
reveal common problems such as:**

- ✿ Excessive earwax
- ✿ Damage to your eardrum
- ✿ Fluid accumulation of your middle ear
- ✿ Other conditions which may make it difficult for you to hear clearly

You are invited

TO A **FREE** HEARING AID **CONSULTATION**

Your hearing difficulties
could just be earwax.

Now with **OTOSCOPIC ASSESSMENT TECHNOLOGY**,
you can find out what's happening inside your ear ... literally.

**To actually see inside your ear canal ...
it would be fascinating, wouldn't it?**

**But more importantly, it may help you to understand
why you are experiencing problems like:**

- **Hearing the sounds, but not being able to distinguish certain words.**
- **Frequently asking people to repeat themselves.**
- **Having difficulty understanding when two or more people are talking.**
- **Turning the TV louder than normal.**

Individual experiences with hearing aids will depend on the severity of hearing loss, accuracy of evaluation, proper fit and ability to adapt to amplification.

NANOTECHNOLOGY

— Miniaturization taken to a whole new level —

Small just got smaller.

A revolutionary hearing aid featuring
the latest in nanotechnology.

— The new age of —

HEARING AIDS

JUST IMAGINE

LOUD NOISE SOFTENED WHILE SOFT SPEECH MADE LOUDER

For those who have difficulty hearing and understanding when there is background noise.

NO VOLUME CONTROLS TO ADJUST

Just slip it comfortably into your ear and listen to what you've been missing!

TINY DIGITAL COMPUTER

Programmed to fit your specific hearing loss requirements.

AUTOMATIC SOUND ADJUSTMENT

As your sound environment changes, your digitally programmed hearing instrument adjusts itself...AUTOMATICALLY!

HEAR

what you've been missing...

A computerized digital hearing instrument so small it hides out-of-sight, while it performs millions of precise calculations per second to give you the highest range of comfortable hearing.

• Designed to assist those who •

- ✿ Hear conversation, but can't understand the words.
- ✿ Have trouble understanding with background noise.
- ✿ Have trouble hearing while on the telephone.

Improve your hearing...

Improve your quality of life.
